A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Women who make a business of beautifying other women come pretty near knowing what will bring about the best results. Here are letters from two, concerning Herpicide:

"After using one bottle of "Herpicide" my hair has stopped falling out, and my scalp is entirely free from dandruff.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

THE WAR CLOUD.

Confidential communications to their home governments by diplomatic representatives of Washington indicate grave consideration of the relations between the United States and Japan. In private conversation some of the diplomatic representatives express apprehension. Some of those who are best informed express the opinion that within the control of the United States and Japan rests the peace of the world for the present. The information that follows was gathered by a European secret agent at Tokio, who communicated it to his government sent it out to its representatives abroad. The contents are marked, purely for diplomatic reasons, as unofficial, but this was done to avoid possible complications should the matter fall into strange hands. "That Japan is apprehensive as to the outcome of the anti-Japanese prepaganda," read the dispatch, "can be proved by the way that the Tokio Foreign Office has been at work for the last few months in outlining plans of defense and offense in case actual war were declared.

A dispatch from Vienna says that according to one of the representatives of a great power chosen to take part in The Hague conference, matters are little likely to be as rose-colored at the coming meeting of the peace delegates as popularly thought. He said yesterday:

"In circles where people are apt to have information of what is going on behind the scenes it is already well known that an intensely dangerous question is to be raised—a sort of international political bomb is to be thrown into the would-be court of peace, and the Japanese are the aggressors. Nothing, it appears, will dissuade them in their intentions. It is this: The Japanese envoy, Susuki, lately Under Secretary of State, is commissioned by his government to put forward with all forcibility possible, the question of the rights of the conqueror to annex outright the territory of the conquered with all that is upon it. That is to say, Japan brings up the proposition hitherto unrecognized, to the effect that all property in the country of the conquered or annexed belongs to the conqueror or annexer.

"This will be warmly denied by both Russia and the United States. The Russians have large private property in Manchuria and the United States considerable mining and other interests in Korea. Of such interests Japan proposes to deprive them. At all events, that is the object of her proposition.

"Indeed, the United States proposes to bring a motion diametrically opposed to that of Japan, and this, in view of the present existing friction between Japan and America, it is easy to see, contains all the makings of a first class international row. What I have told you is the reason why M. de Nelidoff was detained in St. Petersburg for days after the time of his intended departure. The delay was owing to the necessity of serious consideration as to what Russia should do and what attitude she should take in the face of Japan's extraordinary and dangerous proposition, which, I believe, was imparted through Susuki himself and took the Russian government by surprise.

"From what we hear, Germany and Japan will in certain ways act together. Both oppose meetings of the conference open to the press. M. de Nallidoff in that particular will act according to circumstances. That is to say, that if there is much public outcry in favor of the proceedings being public the president will be in favor of it; if not, the sessions will be held with closed doors."

When asked how long he expected the conference to last, he said:

"Two months at least, but we believe that there is a big probability of Japan and Germany being desirous of breaking up the conference and acting accordingly. Both are shy of too much restraining etiquette in matters concerning details of war."

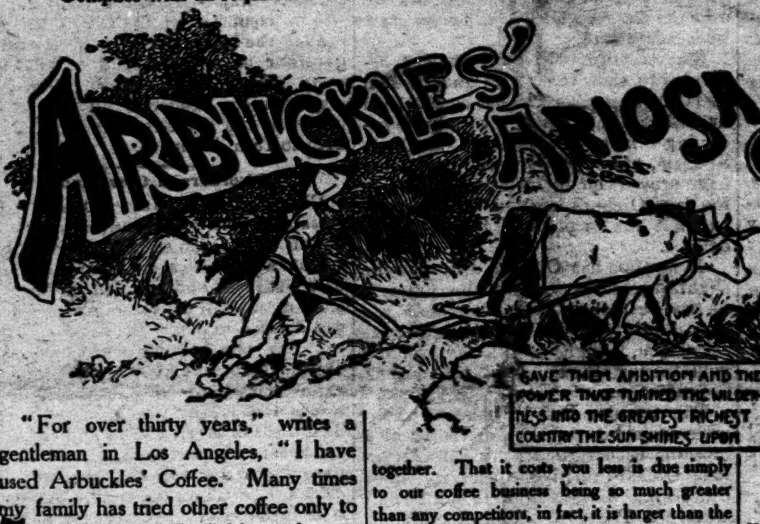

A Real Wonderland.

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mound City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, by E. S. Leadbeater & Sons, druggists. 50c and $1.00. Trial bottle free.

Stole Railroad Train.

The great Northern Seattle-Bellingham local train was Monday night stolen from the depot at Bellingham, Washington, where it was left for a few minutes while the crew went to lunch, by Barkley McCutcheon, a well-known character of the town. Jumping into the cab, McCutcheon threw open the throttle and away the train shot, going north at terrific speed. The bell was ringing and the whistle blowing continually. The train crew rushed for a "speeder" any followed until it was discovered that the man at the valve had reversed the train and was returning south. He had the train under full speed, and the pursuing crew were barely able to get off the track in time to avoid being run down. McCutcheon later stopped the train and was arrested.

"For over thirty years," writes a gentleman in Los Angeles, "I have used Arbuckles' Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbuckles.' No other coffee has this uniform never failing aroma, I care not at what price. I have often wished I could tell you this." Many other people have the same opinion. Arbuckles' was the first roasted packaged coffee, and its sales exceed all the others put together. That it costs you less is due simply to our coffee business being so much greater than any competitors, in fact, it is larger than the next four largest firms in the world combined. We naturally can and actually do give better coffee in ARIOSA than anyone else can give for the price; Being the standard article it is sold at the narrowest margin of profit.

Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a package bearing his name.

Don't take it, neither the looks nor the price indicate its cup quality. No matter where you buy Arbuckles' ARIOSA, or what you pay for it, it's the same old uniform Arbuckles' ARIOSA Coffee.

If your grocer will not supply, write to

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. WEDNESDAY EVENING, JUNE 12, 1907.

THE PEOPLE of the South together with the conservative element in all portions of the country have lost another able representative in the death of Senator John T. Morgan, of Alabama, who passed away at his home in Washington last night. He had been a prominent member of the United States Senate for nearly a third of a century, during which time his labors as a public man were untiring. The legislature of his native State, appreciating his worth, re-elected him to succeed himself term after term since 1876. He became a power in the Senate as soon as he entered that body, and probably no living American had a career of more useful activity. Oblivious to public praise, his rugged honesty placed him in the front rank of representative men in early life. He was fearless in all matters, public and private, rigid in honor and honesty and tireless in duty, as he appreciated duty. His stand concerning the interoceanic canal, he believing the Nicaragua route to be the most practical, was affirmed by many far-seeing people, and it is still a mooted question whether the Panama route will prove to be the more feasible of the two. The venerable Senator was not destined to see the completion of that waterway, although he had labored assiduously in the preliminary work of that great enterprise. Senator Morgan was regarded as one of the most conservative of the democratic members of the Senate. His antagonism to republican ideas and senatorial projects was most bitter and as a member of the committee on foreign relations he blocked many republican schemes. The tall, gaunt frame and white hair and mustache of the old Alabamian have been a landmark of the Senate chamber for a generation. In former years, before he became weakened and enfeebled by age and illness, his speeches were the delight of the galleries and his fellow-democrats, and the bane of the republicans, in whose side he was ever a thorn. Senator Morgan possessed a most wonderful fund of general knowledge, and could talk by the hour interestingly and authoritatively upon a wide variety of subjects. He will be sorely missed not only by his conferees in the Senate, but by the thousands whose business or inclination takes them to the Capitol during the session of Congress.

IN ITS exciting contest with Mrs. Ayres the War Department has resorted to unusual measures. If it had ordered madame to keep off the West Point reservation she could have defied it, and if it had ordered the Superintendent of the Military Academy to keep her off he could have done so—if he were able. But it ordered Lieutenant Colonel Ayres to keep his wife off. Now says the Philadelphia Record most feelingly every married man knows that a husband has no authority over his wife, but if Mrs. Ayres should venture upon the military reservation her husband would be court-martialed for disobeying an order from the department. Of course, Mrs. Ayres is unwilling to involve her husband in trouble, but it was real mean of the department to issue the order to him.

NO HOUSEKEEPER need be told that the meat trust is still in full operation; the frugal housewives have the fact impressed upon them in the most convincing manner when they count their change at the buchers' stands. The advance in the prices of all packing-house products in Chicago from one to three cents a pound last week was reflected by the addition of a like amount per pound to the retail prices of meat which will compel people of ordinary means to take to beans and rice for their regular diet.

THE FEATURE of the exercises at the University of Virginia yesterday was an address by Mr. George Gordon Battle, of New York, who said that the educational institutions of the country are wasting too much time on athletics. It is about time that some one was sounding this warning and that the warning was being heeded.

THE old story about a wet season lasting through "six long weeks in May" is being repeated.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, June 12.

One of the highest officials of the government is authority for the statement that there is no dispute between Japan and the United States, and that the two governments are as friendly now as they ever were. The only grounds for the appearance of trouble, he says, are the jingoistic speeches of political demagogues in Japan, and the sensational and distorted statements in some of the American papers. The Japanese government has conducted itself correctly, and in a friendly manner through all the correspondence that has passed in regard to the occurrences in San Francisco, and is apparently sincerely desirious of maintaining the good will of the United States. The real powers in Japan, including practically all of the elder statesmen, recognize that they would be undertaking a tremendously big job if they were to put the United States in a fighting mood. They are wise enough to see that while it is quite possible that in the earlier stages of a war they might be successful in cutting off America from her Pacific possessions, in the end Japan would be crushed. They are bending their energies now to the development of Manchuria and Korea, and to the upbuilding of their home manufactures. Their domestic problems are keeping them too busy to seek to pick a war with the United States.

The mystery surrounding the loss of the launch of the Minnesota with six midshipmen and five sailors, in Hampton Roads yesterday has not yet been solved. There is a strong belief, however that the boat was run down by a steamer. In fact the report comes from Norfolk that Admiral Evans knows the name of the vessel and is preparing to cause the arrest of her captain and crew. The Navy Department has sent instructions to the admiral to make the most thorough investigation, and to report frequently by wire on the developments. Admiral Evans has already convened a board of inquiry. Much gratification was felt by officers at the navy department today over the fact that Lieutenant Randall, who was at first reported to have been lost with the others, had put in his appearance later in the day. He had intended taking the launch back to the ship, and missed it by only a few minutes, necessitating his stopping at a hotel in Norfolk.

President and Mrs. Roosevelt left for Oyster Bay at 8:30 o'clock this morning. Secretaries Cortelyou, Straus, Garfield and Root, and Admiral Cowles, and Assistant Secretary of State Bacon were among those who saw him off. Several hundred people assembled in the station and cheered him lustily as the train pulled out. At Jersey City the President will take a tug for Long Island City and will reach Oyster Bay about 5 o'clock this evening. A score of clerks and secretaries accompanied the President to the "summer capital." He will not return to Washington till October. The President this morning dictated the following message after his train had left Washington: "To Rear Admiral Evans. We are inexpressably shocked and grieved by the news of the disaster to the officers and men of the Minnesota."

The action begun today in the United State Circuit Court at Philadelphia by the Department of Justice which seeks to dissolve what it characterizes as the anthracite coal trust, may have much greater scope before the suit is finished than is apparent in the statement made public by the Attorney General. An examination of the petition itself discloses the fact that not only is the government after six leading railway companies, a holding company, and seven subsidiary coal companies, but it will try to have made parties defendant later in the action a large number of independent operators, whose identity is now unknown. It is charged that these operators, who mine 25 per cent. of the annual supply of anthracite coal have been forced by the conpiracy of the coal-carring lines to enter into uniform agreements obligating themselves "to deliver to the defendant carriers all the anthracite thereafter mined from any of their mines now opened and operated, or which they might thereafter open, deliveries to be made from time to time, as called for by the said carriers or their subsidiary coal companies."

DEATH OF SENATOR MORGAN.

United States Senator John T. Morgan, of Alabama, died last night at 11:15 o'clock at his home 315 John Marshal place, Washington. Angina pectoris was the immediate cause of his death. For the last ten days the venerable statesman had been critically ill, and his death was not unexpected. A great part of Senator Morgan's life had been marked by ill death. He was seized with an attack of scarlet fever when a young man and he was practically left without health for the remainder of his life. No plans have been for the funeral services, which will be held probably in Washington. After the ceremonies there the remains will be forwarded to Selma, Ala., Senator Morgan's home, for burial. Congressional committees will be appointed to attend the funeral.

Had Senator Morgan lived until June 20 he would have been eighty-three years old. On March 5 next, had he lived, he would have rounded out thirty-one years' continuous service in Congress. He was one of the three Senators of longest service, the other two being Senators Hale and Allison, and was one of the three oldest members in point of years, the other two being Senators Petius, his aged colleague, and Senator Whyte.

Senator Morgan was born at Athens Tenn., June 20, 1824. When nine years old his family moved to Alabama, where he received his academic education. He was trained for the Presbyterian ministry, but subsequently studied law and was admitted to the bar of Alabama in 1845. Except for the years of the civil war, when he saw varied and extensive service in the Confederate army, rising to the rank of brigadier general, he practiced law until he was elected Senator in 1877.

His career as a senator forms an interesting chapter of American history. Senator Morgan has been called the father of the interoceanic canal project. From the first he favored the Nicaraguan route, and while chairman of the interoceanic canal committee his opposition to the Panama project as advocated by the President was so pronounced that he was finally relieved of the chairmanship of that committee.

By the custom prevailing in Alabama, where the legislature meets only once in four years, the election of senators is practically by popular vote, and Senator Morgan and his colleague, Senator Petus were re-elected in this manner last fall. Realizing that either senator, both of whom were more than eighty years of age, might die before the next legislature meets, Congressman Bankhead, of Alabama, was chosen as successor in the case of such a vacancy occurring. The governor of Alabma will be called upon, therefore, to appoint former Congressman Bankhead to succeed Senator Morgan at the next session. Mr. Bankhead, it was remembered, was defeated for re-election to Congress by Capt. Hobson.

Vice President Fairbanks, who is in Delaware, O., today telephoned to the Sergeant-at-arms of the Senate the names of the Senators to attend the funeral of Senator Morgan. A committee of Representatives will also accompany the remains. The funeral services will be held in Selma on Saturday and the train will leave Washington for Alabama tomorrow evening.

With Senator Morgan's death the last of the "southern brigadiers" of the Senate passes away.

Today's Telegraphic News.

The Haywood Trial.

Boise, Idaho, June 12.—When Harry Orchard, the self-confessed slayer of eighteen men, returned to the stand today for his seventh day on the grill, his appearance showed a marked contrast to that of Attorney Richardson, the man who has hurled every known legal harpoon and barb at the witness without penetrating the armor of stoicism in which the witness encased himself.

Orchard, calm and unperturbed, stepped to the stand with a light step, and, after casting an interested glance over the packed court room, settle himself confortably in his chair without the slighest indiction of annoyance or anxiety over the disagreeable hours that he knew were before him.

Richardson, on the other hand, is beginning to show the strain under which he is laboring. That he has been netlled by Orchard's success as a witness is becoming more and more manifest. Sarcasm, abuse, trickery and persuasion have proved equally ineffective in wringing from Orchard answers which might entangle him or prove of benefit to the defense.

At no time has Orchard displayed the slightest resentment. On the contrary, he has been exceedingly careful to answer clearly and distinctly all questions asked him, though scrupulously avoiding volunteering the slightest information not asked.

This morning Richardson resumed the cross-examination. For an hour this morning Richardson tried in vain to confuse Orchard relative to his testimony concerning his attempts to assassinate Governor Peabody. The witness stuck to his original story and declared that the attempts were all inspired by Haywood and Moyer.

Italians Fight Duel.

Boston, June 12.—A sister's appeal to the brother for protection from her husband, precipitated a duel today between two Italians which left John Scory dead and Joseph Totarello dying. Lying on the floor the two men blazed away at each other in the dark until they could no longer pull a trigger.

The shooting occurred in the narrow hallway of Totarello apartments in East Boston. Monday night Mrs. Scorey told her brother that her husband had been drinking and abusing her until she was afraid to live with him. When Scorey came yesterday demanding his wife, Totarello threw him out of the house, vowing vengeance.

Early this morning Totarello heard a rap on his door, and opening it, found his brother-in-law, who immediately opened fire. With a hole through his stomach, Totarello pulled his revolver, and in the darkness, both men creeping on the floor and directing their shots by the flashes of the other's pistol, ensued a terrific duel. That it ended by the men coming to close quarters was evident when the police entered, for they found Scorey stone dead with Totarello unconscious on top of him. At the Relief Hospital today it was said that Totarello cannot recover.

Banished by Kaiser.

Berlin, June 12.—The great sensation in court circles in recent years has been created by the degrading and ordering out of Germany of Prince Frederick Henry of Prussia, by the Kaiser, his cousin, because of his extreme immorality. Kaiser William personally tore from his relative the orders and decorations he wore, boxed his ears and ordered him to leave Germany and never return under penalty of being thrown into prison. In tears Frederick Henry departed and is now on his way to Egypt. The scandal is all the greater for the reason that Frederick has always posed as a pious man and was reputed to be the most moral member of the imperial family. He is the son of the late Prince Albrecht, regent of Brunswick, and inherited $7,000,000. Frederick's younger brother, Prince Joachim, recently figured in a scandal when he proposed to marry Marie Sulzer, a music hall singer. He was banished to Africa to prevent him from carrying out the plan.

Another Sensational Case.

New York, June 12.—Sensations that will stir all New York are now expected as the result of yesterday's developments in the suit of Mrs. Lucy M. Randolph, to secure $600 a month from W. E. Stokes, the millionaire clubman, for the support of William Edwards, whose paternity she attributes to Stokes. Some of the sensations were promised today in the testimony to be offered before Judge Laycox, at Flushing, L. I. In dragging the name of his old time friend, Peter Duryea, the horseman and husband of Viola Allen, into the suit Stokes gave the cue on which the predictions of colossal sensations are based. The defense has intimated it would show several other men were intimate with Mrs. Randolph. If Stokes would sacrifice Duryea it is certain he will not spare others. Mrs. Randolph has also indicated her willingness, if necessary to bring in prominent persons.

Killed by Explosion.

Quincy, Mass., June 12.—A third death today completed the total of a peculiar accident in the Fore River shipyards. While a large force of men were heating a big propeller shaft late yesterday afternoon, a steel ingot 18 inches in diameter, and weighing five tons, which was used to plug the hollow end blew out, shooting across the shop and fearfully mangling John Fitzgibbon and Charles Hogg. Charles Handen received a glancing blow which fractured his skull and gave him internal injuries from which he died today. The cause of the explosion is a mystery. One explanation is that water penetrated into a hollow space behind the ingot.

Capture of Filipino Leaders.

Manila, June 12.—With the capture of head chief Faustino Ablen and under chiefs Uldarice, Riota, and Tuci, of the Pulsjanes, the authorities declare that it will be possible to remove troops from Leyte, on which island a campaign against the Pulsjanes was begun a year ago. During the fight which preceded the capture Ablen was seriously wounded. For five months fourteen columns of troops, with scouts and constabulary, have been campaigning around the hiding places of the Pulsjanes.

The New York Stock Market.

New York, June 12.—Uneasiness in the market was reflected in a general selling movement that carried prices down a fraction or so. There opening gains, later losses and sharp recoveries in nearly all the stocks traded and in the trading after the first hour the market developed general strength and increased activity. A number of stocks then showed net gains over yesterday.

Virginia Day.

Jamestown Exposition Grounds, June 12.—Scores of Virginians, not only from the Old Dominion, but sons and daughters of the Mother State, now living in other regions, are expected to make Virginia Day a big success at the Jamestown Exposition today. Thousands of them are here, and other thousands coming. The military furnished one of the chief features of the day's celebration. The entire Virginia brigade of infantry, the artillery, the cadets from the Virginia Military Institute and the Polytechnic Institute, joined by the Fifth Georgia Regiment, the United States troops in camp and other military and semi-military organizations, united in a big parade. Major-General Fred D. Grant was in command of the troops as they passed the grandstand in view of the governor of Virginia and other high State officials. Governor Swanson's proclamation summons all Virginians here for the home-coming week, June 11th to 15th, inclusive.

Disorders in Cleveland.

Cleveland, O., June 10.—The increased price of meat resulted in riots today in the Jewish section. Aroused by recent advances a mass meeting was held last night and decided to buy no more meat until prices were reduced. It was decided to picket the shops and prevent any one leaving with purchases. There are about 40,000 orthodax Jews in Cleveland. Many of the shops opened as usual today, but were soon surrounded by crowds of men, women and children. Customers who left the shops with meat were attacked and beaten and their purchases thrown into the mud. Attempts were made to storm two or three of the shops. Police reserves were finally called and restored partial order.

Excitement at Railroad Station.

Philadelphia, Pa., June 12.—Broad street station was wild with excitement this morning when the attempt of John Collatte, an Italian, of New York, to run away with the wife of Petro Decastro, culminated in the effort of a half hundred of the aggrieved husband's friends to kill Collatte. Only the appearance of a policeman and some railroad officials prevented the mob from lynching the New York man. Yesterday Collatte persuaded the wife to gather up her children take the savings and elope with him. The wife agreed and together, the boarder, wife and children and the savings departed.

More American Cardinals?

Rome, June 12.—One and prehaps two American Cardinals are to be appointed by the Pope at the September consistory, according to announcement made today. Pope Pius discussed with Bishop Stariha of Lead, S. D., the project suggested by certain wealthy Americans to present the Vatican a strip of territory leading down to the sea in order to give him an opportunity to visit the seashore without violating the Vatican traditions that the Pope must not leave the Vatican grounds. The Pontiff said: "It was a generous offer, but useless, for I think I will die before I recover my liberty."

Work of Incendiaries.

Girard, O., June 12.—A fire bug's work early this morning succeeded in destroying half the business section of the town, with a loss of nearly $200,000. Eight business blocks, the Methodist Church, the finest structure in the town, and two residences were burned. The town was saved from total destruction by the Youngstown fire department. At 5 a. m. the fire was under control. At almost the same hour the fire started here, flames broke out in a livery stable at Mineral Ridge, six miles away. This fire was extinguished with a loss of $4,000.

Rescue of a Fisherman.

New York, June 12.—After being adrift in an open fishing boat for fourteen days with his provisions exhausted and almost insane from his struggle to keep the frail craft afloat in the heavy sea, Louis Vollet, a fisherman, from the French schooner Mimpsa, from St Malo, was picked up yesterday by a Cunarder nearly 800 miles off here. For six days he had eaten scarcely anything, husbanding his scant provisions to make them last as long as possible. One companion, who was swept out to sea with him, was lost.

Dastardly Murder.

Jackson, Miss., June 12.—With her invalid husband by her side unable to render any assistance, Mrs. Theodore Elser, wife of a prominent farmer living near the Louisiana line, was shot to death by three masked men some time last night. The whole country is aroused and blood hounds have been placed on the trail of the unknown assassins.

Battle in Progress.

San Salvador, June 12.—A battle is believed to be in progress at Acajutla, the Salvadorean part captured yesterday by revolutionists, assisted by Nicaraguans troops were dispatched today to recapture the town, and as the city offers advantage for defense by a well-armed force, it is believed a fierce fight for its possession is eminent.

Cadets Drowned.

Six midshipmen and five saliors from the battle ship Minnesota, now at anchor in Hampton Roads, are missing and they are supposed to have been run down and drowned while returning in a launch about midnight Monday night from the exposition pier to the battle ship. Those missing are:

Midshipmen Franklin P. Holcomb, Herbert L. Holden, Walter C. Ulrich, Henry C. Murphin, jr., William H. Stephenson, Philip H. Field. Seamen Robert H. Dodson, Frank R Plumber, Harley L. Van Doren; Fireman George W. Westphal, and Coal Passer Jesse Conn. The only man known to have been lost is Midshipman Ulrichs, from the battleship Minnesota. His cape was found afloat in the Roads yesterday afternoon by the monitor Florida. The naval officers are using every effort to locate all men attached to the fleet.

Yesterday evening this message dated Hampton Roads, 4:15 p.m., came to Washington from Admiral Evans:

"A ditty-box, belonging to fireman of Minnesota's missing launch, has been picked up afloat near berth 27, and I am forced to conclude that launch, with all on board, is lost. Have ordered board of investigation. Steamer last seem at exposition pier about midnight last night."

A marriage license was issued in Washington yesterday to Joseph N. Hornbaker, of Manassas, and Mary W. Price.

City Council.

There was a brief meeting of the City Council last night, and but little business was transacted.

BOARD OF ALDERMEN.

All the Aldermen save Mr. Sweeney were present.

The resolution making an additional appropriation of $2,800 for the use of the public schools, received from the lower board at the last meeting, was passed.

Mr. Hill introduced an ordinance, which was referred to the committee on public property, granting the right of way to the M. Schuler Beef Company to the alley to the north of a lot of ground owned by the city on the east side of Patrick street, between King and Cameron.

The board concurred in the action of the Common Council on all the papers sent in.

COMMON COUNCIL.

The board was called to order at 8:10 o'clock.

An act to appropriate a part of the city revenue for the fiscal year ending May 31, 1908, received from the Board of Aldermen at the last meeting and laid over under the rules, was read and passed by a unanimous vote. The bill carries an increase of $6,000 for the improvement of the court house and clerk's office.

The committee on light reported an ordinance to regulate the placing of telegraph, telephone, electric light and power poles and the stringing of all wires carrying electricity. The ordinance places the work under the supervision of the city engineer and the committee on light. The object of the ordinance is the reduction of the number of poles on the streets, to prevent the placing of poles and wires in positions that might interfere with the operation of the fire department, and to minimize the danger of fire from electric wires. The ordinance also provides that the city engineer shall be kept informed about all poles and wires by the companies doing business in the city and shall reserve for the city, free of cost, a cross-arm at the top of each pole for a fire alarm system, should such be installed. A penalty of from $5 to $50 is provided for each violation of the ordinance. The ordinance was referred to the finance committee.

A petition from the Columbia Fire Company requesting an appropriation of $100 for expenses to the Firemen's Convention at Newport News next August was refered to the committee on finance.

Several permissions were granted to property owners to improve their property.

A resolution was offered and passed requesting the Commissioner of Revenue to communicate with the State Corporation Commission for information in regard to several corporations located in this city and subject to taxation.

Mr. Birrell offered a bill to amend section 63 of an ordinance for the collection of licenses, amending the section so as to require the payment of a license tax by any one selling any article upon the streets.

Mr. Birrell said that on last Saturday a man on the corner of Royal and King streets had sold in the neighborhood of $100 worth of razors and soaps which no doubt were inferior to the goods sold by merchants of the city. The merchants were suffering from this competition. He did not think the tax too high. The matter was referred to the finance committee.

Mr. Evans offered a resolution appropriating $25 for the purpose of cleaning up Penny Hill burying ground. The resolution was adopted after a statement by Mr. Evans that the burying ground needed a cleaning out.

The resolution requesting the W., A. & Mt. V. Ry. Co. to station a special officer at the intersection of Prince and Royal streets, which was passed at the last meeting, was returned from the Board of Aldermen non concurred in, that board having referred the resolution to the committees on general laws and police with a request that they prepare an ordinance compelling the company to place such officer at that intersection.

The action of the Board of Aldermen was concurred in.

A resolution appropriating $100 for the expenses of the City Engineer and the committee on light to further prosecute their investigation into the lighting system of the city was offered by Mr. Uhler.

Mr. Uhler said the committee had already expended $200 in their prosecution of the investigation and would need a part at least of the $100 now asked for.

The resolution was passed.

Mr. Birrell asked what had become of the resolution offered by himself at a previous meeting and referred to the committee on general laws for the codification of the city laws. He stated that Council was passing laws and was in ignorance as to whether the same laws had been passed or not. He also asked permission to appear before the committee.

Mr. Burke said he would see the chairman of the committees and arrange the matter.

The board then adjourned.

The Trial of Judge Loving.

"The evidence to be introduced in the trial of Judge Loving will put an entirely new phase on the case when the hearing begins at Houston," was the declaration of a prominent member of the Richmond bar yesterday.

"The fact that Miss Loving and Judge Loving have made no statement since the tragedy shows good sense," continued the speaker, "and I know enough to say that there will be some startling facts brought out. Several women whose names have not as yet been mentioned will be asked to testify, and I am reliably informed that they will go on the witness stand."

The current report in Richmond is that a continuance will be asked when the case is called in Halifax county on the 24th of this month. This cannot be verified, and it is not known which side will ask for such continuance.

Strike Imminent.

Chicago, June 12.—A committee from the teamsters' union today demanded answers to the request for an increase of four cents an hour for meat packers' drivers. The rise in the price of meats was cited by the committee as justification for the demands. Both sides are preparing for the coming strike.

The prevailing easterly winds and recent rains have caused high tides in the river. There is also a current in the stream.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

TO THE OWNERS OF DOGS.

MAYOR'S OFFICE,
Alexandria, Va., June 12, 1907.

All persons owning or intending to keep any animal of the Dog or Canine species should come forward on or before

JUNE TWENTY-FIFTH, 1907,

and take out a license for the same from the Auditor. After the 30th of June all persons owning or harboring Dogs without the required license are subject to a fine as the laws on the subject require of $3.00 or $5.00.

Complaint has been frequently made that many persons fail to take out their license, and that others pay on one or two dogs when owning and harboring more, or who send such dogs away during the summer months and bring them back in the fall.

Attention has been called to this evasion of the law, and policemen will report all such cases and fines can be imposed upon those who fail to take out licenses after trial in the Police Court.

The police officers will be required to report all violations of this law.

☞In order to avoid any mistakes persons who make application for licenses would do well to write their names and number of residence, street, etc., on a card or paper when making application for licenses to the Auditor.

FRED. J. PAFF, Mayor.

MRS. AYRES.

"It is persecution pure and simple and it is an outrage to the United States military."

Mrs. Elizabeth Fairfax Ayres yesterday thus discussed the recent order from Secretary Taft forbidding her to set foot in West Point. Living at the West End Hotel, at Highland Falls, although but a few hundred yards from West Point, Mrs. Ayres, wife of Lieut. Col. Charles H. Ayres, is as far removed from seeing her only son, Cadet Fairfax Ayres, as though she were in prison. "Not only am I kept from my son and from all social intercourse with my West Point friends," said Mrs. Ayres, "but I am not allowed to take the train at West Point. I am an exile here in Highland Falls."

"Darkest Russia could not have any more arbitrary ruling than this scandalous treatment I am forced to receive.

"Think of such an indignity being brought upon me—of having the names of Fairfax and Ayres made common property all over the English-reading world—and in such a way. How can the United States have such a man (Col. Howze) at the head of a great military school—a man whose actions show his respect for womankind as represented by the mothers, wives and sweethearts of the cadets?

"Only let me cite one instance of Lieut. Col. Howze's exquisite breeding. Col. Ayres and I attended a hop last week at West Point. As is customary, the commandant and his wife are invited to assist in receiving. When Col. Ayres and I approached the reception committee, Mrs. Howze whirled around and turned her back upon me. A fine, ladylike example to be set before the cadets of West Point.

"Col. Ayres and my daughter went up the other evening to make a dinner call, but I had to remain here. Doesn't it seem incredible that such a thing could happen in the United States. To think of Col. Ayres' record, of my own family and social standing, of my son, the sixth of his line to follow the army, and me to be ostracized at the instigation of a man like Lieut. Col. Howze.

"It will not be long before the order is rescinded, I am sure," said Mrs. Ayres. "The press of this country will not allow such a matter to rest—nor will I. As for Secretary Taft's instructions sent my husband, they are too insulting and despicable to be quoted. I have placed the letter in the hands of my lawyer and we will soon see what the outcome will be."

The University.

Yesterday in the commencement calendar at the University of Virginia was known as Alumni Day. The exercises began at 9.30, with a meeting of the General Alumni Association, and at noon the alumni assembled at Madison Hall to hear the annual alumni address by the Hon. George Gordon Battle, '89, of New York. On account of an unexpected engagement in court, Mr. Battle was unable to come to the university and his address was read by Judge A. C. Carson, formerly of Front Royal, but since 1899 a resident in the Philippine Islands, and now judge of the Insular Supreme Court. Mr. Battle traced the history of education in Virginia. After this historical survey, he discussed some modern educational problems, including commercialism, and closed by a glance at two issues of lively importance—college athletics and the proposed exclusion of Latin from the requirement of the degree of B. A. and M. A. He wrote in part:

"I cannot but view with alarm the modern tendency to allow to athletics and to athletes the overweening and overshadowing places and position in college life that they now seem to occupy."

Decourcy W. Thom, of Baltimore, was elected president of the alumni association, to succeed the late Samuel Spencer.

Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; He says: "Doctors got badly mixed up over me; one said heart disease; two said it was kidney; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranted to cure blood poison, weakness and all stomach, liver and an, weakness and all stomach, liver and kidney complaints, by E. S. Leadbeater & Sons, druggist, 50c.

The Enterprise Does not Even Try to do Justice to Mr. Carlin.

As stated elsewhere on this page the Culpeper Enterprise, Mr. J. T. Wampler editor, in its issue of May 31, reproduced from the Rosslyn Monitor of the week before the article which was headed "A Secret Carlin Meeting." The explanatory letter of Mr. Crandall Mackey and the retraction of the editor of the Rosslyn Monitor were published in the Monitor in its issue of May 31.

Yet, in the issue of the Culpeper Enterprise of today, June 7, one week later, there is no mention of Mr. Mackey's explanation, nor of Mr Lyon's retraction. Any fair minded man, having published the original charge, would have been quick to publish the explanation and retraction.

Is this a fair and square way of dealing with a candidate? Are the people of this county going to be influenced to vote against Carlin by any such unfair dealing? The idea of a man being willing to circulate, in public print, a slanderous charge, and then failing to publish an authoritative explanation and retraction of the slander. This kind of campaigning will not go with Virginians, who, above all things, like fair play and square dealing. And it is by such methods that the people of the Eighth District of Virginia are asked to decide the important question of who shall be the next Congressman from this district.

The editor of the Culpeper Enterprise, by its failure to publish the Mackey letter and the Lyon retraction, is guilty of perpetrating a gross and flagrant injustice upon one of the candidates for Congress.—Culpeper Exponent, June 7th. (adv)

When Prescriptions are Wanted

Dienelt's Pharmacy enjoys the favor of all intelligent people. The reason is not hard to understand. Reliability describes it exactly. Physicians have made it perfectly understood that their prescriptions must be filled exactly as written and under no circumstances can substitutes be tolerated, therefore the bulk of prescriptions come to us because we and our drugs and medicines are known to be absolutely reliable.

WEDNESDAY EVENING, JUNE 12, 1907.

Wanted to Kiss Jurymen.

Miss Mary L. Wightman, charged with stealing $1,300 from the Chicago branch of Hapgood & Co., where she was employed as cashier, yesterday was found not guilty by a jury in Judge Hall's court. She was so elated that she attempted to kiss the jurors.

"Let me kiss the jury," she yelled, when the 12 men had answered "yes" to the verdict that removed the stigma from her name and sent her forth a free woman. Pandemonium reigned in the court-room, and the jurors left while the excitement was at its height.

The sensational scene was the finale of a startling trial. Miss Wightman, who is a graduate of the Northwestern University, was charged with tampering with the books, misappropriating the money and giving it to a gambler.

The sensation of the trial came when the young woman took the witness stand and repudiated an alleged confession.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by E. S. Leadbeater & Sons.

Grazing War in Ireland.

The grazing war in Ireland is spreading rapidly and becoming popular. The most serious affair which has yet occurred was near Athenry, Galway, at midnight Monday. A large posse of police opposed a crowd of people who were driving cattle off a farm. The raiders stoned the officers, several of the latter were badly hurt, and the sergeant in command ordered the posse to fire. The latter fired repeated volleys at the crowd, who returned the fire, finally compelling the officers to retreat, when the peasants finished their raid. Two or three farmhouses have been fired into at night recently. The general sympathy of the masses is with the people, even in the case of many public officials, which ties the government's hands.

A Dangerous Deadlock.
